SUMMARY

Full stack software developer with strong business acumen. Communication and problem solving are my greatest strengths, and I'm looking to gain more experience in tech to continue my growth as an engineer and a leader.

SKILLS

Front End: React, Vue, Bootstrap, Flexbox, HTML5, CSS, Javascript, Python

Back End: Node.js, MongoDB, Express, Next.js, Flask, SQLite, MySQL, SQL

Softwares: Microsoft Office, Adobe Photoshop, Quickbooks, Shopify, Salesforce, Hubspot, Netsuite

EXPERIENCE

Teaching Assistant

General Assembly

January 2020 - present, Chicago, IL

- Help educate the students in the software engineering immersive program.
- Reviewed lesson plans and project outlines with the instructors to ensure students had clear directions.

Salesman and Project Admin

Stokkup Software

August 2018- August 2019, Chicago, IL

- Lead all sales, onboarding, accounting, and marketing efforts for the software application.
- Trained clients on how to use the software, and how to integrate the platform into their workflow efficiently.
- Represented the clientele in all UX and development meetings based on user feedback.

Sales Associate

All Covered, IT Services from Konica Minolta

March 2018- August 2018, Downer's Grove, IL

- Generated sales opportunities for IT specialists ranging from Cloud Storage to Cyber Security.

CERTIFICATIONS

Software Engineering Immersive

General Assembly • September 2019- December 2019

Completed 500+ hour intensive course on full stack software engineering, built 20 different applications including my own web store and a skill tracking app.

VentureScale Cohort

Sales Assembly- Chicago • September 2018- March 2019

Learned best practices from SaaS CEOs and CROs for scaling and executing a strategy for a start-up.

EDUCATION

Bachelor of Science in Healthcare Management and Policy

Indiana University • Bloomington, IN • May 2016

Healthcare Finance and Financial Management

Indiana University • 2016

Strengthened my foundation in financial accounting, budgeting, debt financing, and cost allocation.

Public Health Program Planning

Indiana University • 2015

Conducted a community needs assessment on sexual victimization on the Indiana University-Bloomington campus over the semester then created and presented an educational intervention proposal.
